

Due to the fact we are finishing the Coed Tournament on Saturday July 25th we are going to make a revision with the player eligibility rule for this Coed Tournament ONLY.

--You may add up to 3 players to your roster to get to a maximum of 10 players.

--You may not add another player if you are already playing with 10 or more.

--Any player you add may not come from another team playing on Saturday July 25th.

--The players you add may not come from a league above you. For example: if you are the manager of a Lower League team you may not add Upper League players. You may add a player from another Lower League team or someone who has not played in one of our Coed Leagues this season. If you play on an Upper League team you may add a player from an Upper or Lower League team.

--All players added to your team must sign the roster before the game or they will be considered an illegal player.
